HOOVER SENTIMEN SWEEPING COUNTRY NOW, IS DISCLOSED

Great Groundswell for Him Is Reported From Many Sources.

By N. O. MESSENGER. NEW YORK, January 20 .- There no mistake in the fact that there is a tremendous groundswell of sentiment for Herbert C. Hoover for President of the United States. The

practical question of which political party shall nominate him appears to be regarded as of secondary impor-The writer has encountered this sentiment in every state visited in his

sentiment in every state visited in his political meanderings since the middle of December. Everywhere the Hoover sentiment, when expressed, is non-partisan or bi-partisan, or whatever you want to term it. It rises above party politics. It is claimed to be the reaching out of the people who entertain it for a man and a set of principles; a getting away from association with reaction and radicalism both; a sounding with the deepism both; a sounding with the deep-sea lead for safe anchorage hot marked by channel buoys and spars set by politicians of the past. People Are Restless.

and realized that the people are rest-less and are thinking more deeply about men and principles than about parties or old political fetishes. The existence of this feeling to such a large extent as now seems to be in-dicated promises to make 1920 a bad ar for extremists, for standpatters old and for the vender of radical nostrums as well.

Hoover appears to be a fascinating character, attractive to all classes. I can take you into the biggest financial houses of Manhattan Island and you will hear Hoover praised. The man in the street will tell you

The man in the street will tell you that he finds Hoover men all around him in his neighborhood. The tenyear-old daughter of a friend, who held up her well cleaned plate at dinner the other night, and said, "That ought to please Mr. Hoover," showed that his name is a household word.

Now, they do say that the farmers of the northwest are against him. Two months ago the representative of one of the biggest granger ogranizations, with a membership of two million, told the writer in Washington that the western wheat growers would fight Hoover. At the Amen Corner dinner the other night the president of a western transcontinental railroad, just on from the northwest, told The Star correspondent that the farmers are against Hoover. They charge, it is said, that he was responsible for \$2.25 wheat, while the southern cotton growers operated with the lid off of cotton prices.

Shies at Being Selected.

The family, to destroy the charly, to destroy the church and overturn the whole fabric of a constitutional form of government.

The judiciary committee refused to note the appearance of the New York City Bar Association committee, headed by Charles E. Hughes, which asked to be received in the interests of the public.

Mr. Martin in explaining the refusal to receive the Bar Association representing any parties outside of the inquiry. He explained that many organizations interested in the proceedings wished to appear, and it was necessary to adopt a "hard and fast rule" that an appearance could not be granted unless these delegations well and fast rule" that an appearance could not be granted unless these delegations will be brought down to 1914 prices for those who took advantage of the system.

"It is a fact that distribution is almost as great an expense as production," he declared. "The farm-to-count of the committee, nor he present bill on the committee proceedings wished to appear and it was necessary to adopt a "hard and fast rule" that an appearance could not be granted unless the proceedings wished to appear and it

the story telegraphed The Star last Friday that the democratic administration wanted Mr. Hoover to run on the democratic ticket. Today's informant said that Mr. Hoover had shied at the proposition. I have heard from many sources that Mr. Hoover to run mittee which I represent has prepared."

Mr. Hughes then read the closing paragraph of the statement, which was to the effect that no disqualification had yet been shown against the suspended members; that the charges dency. That he feels he has limitations and has no illusions about them nor delusions about himself. But, it is declared emphatically by men here who have talked with him recently, there is one thing upon which he is absolutely sure of himself, and that is his firm intent to lend himself to a constructive program of politics and legislation in wheatever capacity he may be enabled to further it.

suspended members; that the charges had not been properly laid; that the privileges of their seats should be restored to them; that the charges had not been properly laid; that the privileges of their seats should be properly formulated, and that until such time as the judiciary committee determines their qualifications they should enjoy all privileges of their seats should be restored to them; that the charges had not been properly laid; that the privileges of their seats should be provileges of their seats should be provileges of their seats should be restored to them; that the charges should be provileges of their seats should be provileges of their states and not seat should not sea

Hoover will not play the political game the old way for any party," de-clared today a man who has been close to Mr. Hoover through many years, and in other lands than this. And when this man said that he expressed in a sentence the feeling which is responsible for the groundswell of Hoover sentiment. It

Seen as Political Enigma.

Here is a man who is, in a way, a political enigma. One day they call him a democrat and the next day a republican and then an independent. But, of course, before he can be President he must be the candidate of some dent he must be the candidate of some elected to give them a public and imregular party or of an independent organization. No one takes seriously the idea that he could be an independent candidate and win. If, as reported, he repulsed the alleged advances of the administration to be the democratic candidate, would be be more gracious to a tender from republican hands, the politicians are wondering. Naturally, the "practical" political leaders look askance at him. They don't want any man who is heralded in advance as one who will not play the game as they understand it. So, it becomes difficult to see how this Hoover sentiment is to be crystallized and assembled for practical purposes unless some party organization does take him up and propose him as a suspended socialists, one providing that candidate for the nomination. It might they should be reseated, were laid over be done by delegates to the conventor a week at today's session of the tions keeping Mr. Hoover in the back house, preceding the opening of the trial. of their heads as their second choice when the favorite sons have had their innings or when there should be a \$30,500,000 CUT FROM the moment one must be content to chronicle the existence of this Hoover feeling and leave the development of it in the lap of time

National Association at Indianapolis Adopts Resolution to Aid Plan.

The campaign to enfranchise the esidents of the District of Columbi received added impetus at the annual convention of the National Associa tion of Building Exchanges, which convened last week in Indianapolis.
Edward H. Mealy, secretary of the
Washington Builders and Manufacturers' Exchange, who accompanied
the local delegation of building men to the convention, returned to this city today.

A resolution urging the several

thousand delegates to go on record as favoring votes for Washington was introduced by Mr. Mealy and adopted

Heartily in Favor.

"The national association represents

Congress and at the presidential elections.

"The resolution set forth that Washington has for years been in the first rank when it comes to patrictic endeavor. It has contributed millions of dollars to liberty loans, war fund campaigns and other patriotic and charitable causes. It has sent the flower of its youth to the battlefields, many of whom gave up their lives in the performance of duty. In a word, Washington is on the firing line—and yet Washington has no say in the government.

"The resolution further stated that to deny the citizens of Washington the right of suffrage was an extreme injustice," and declared that it be the sense of the convention that the vote should be given the District in national matters and for representation in the House and Senate. It urged all exchanges throughout the country to use their influence with their representatives and senators to support any legislation that would enfranchise the citizens of the District of Columbia."

Knight board did not give sufficient consideration to service at sea, particularly to the duties and responsibilities of members of the staff of the comments of the staff of the comments of the staff of the duties and responsibilities of members of the staff of the comments of the staff of the duties and responsibilities of members of the staff of the duties and responsibilities of members of the staff of the comments. He read the letter at the request of the chairman Hale.

Admiral Mayo took a view diametrically opposed to that expressed by Rear damiral Sims, who told the subcommittee that the Knight board, in granting awards, gave too little consideration to service at sea, particularly to the duties and responsibilities of members of the staff of the comments.

CLASSIFIERS TO IGNORE SIZE OF ONE'S FAMILY

Because a government clerk has five children will not get him a bigger salary than another who holds a similar job but has only three children.

What the general trend of salaries will be has not been determined by the commission, but it is certain that the question of children will not enter into the problem, except in so far as it may help decide upon an ultimate minimum.

In Canada, where a scheme of re-classification of its civil employes recently went into effect, a larger salary is paid to the clerk who has five children than one who has two. But Washington is not Canada, says the reclassification commission.
